MEMORANDUM FOR: Assistant For Public Affairs

FROM :

SUBJECT : CIA Record Retention

STAT

STAT

1. In discussions with [redacted] director of the Agency's record retention program, it became apparent to me that, in addition to problems peculiar to it, the CIA shares many of the paperwork problems of the business world and that it is making an active and impressive effort to bring these under control.

2. The annexed draft article describing our problems in this area and what we are doing about them may be appropriate for publication over the Director's by-line in some forum. One which comes to mind is the op-ed page of the New York Times.
